JUST JUSTICE encourages the passage of Michigan Senate Bill SB 0061/0060

And House Bill HB 4171/4170 aka "The Wrongful Imprisonment Compensation Act."

When a person is found actually innocent by a court of law and is released from prison,
he or she often has no place to live, no job, and no medical coverage.

The time, income, and skills lost in prison cannot be regained.

But the fair and just compensation provided by the proposed legislation
offers opportunity for a new beginning.
